

GREEN YARDS (PTY) LTD
COMPANY PROFILE
2018–2022

Welcome Message

Message from Founder & CEO

“

Welcome to our awesome family- youthful, vibrant, ambitious and above all achievers. Thank you for taking time to view our profile. It has been amazing past 3 years in the agriculture infrastructure industry. We may have faced challenges such Covid-19 along our route to success but trials and tribulations we triumphed and still growing organically.

About Our Company

IT ONLY GETS GREENER

Company status:

Active-Registered with Trade and LRA

Tin: 200099551-0

TCC id: 0301343035

GREEN YARDS (PTY) LTD is registered agribusiness in Lesotho. Founded by a Mosotho youth and 100% managed by youths.

We construct, assemble shade nets, offer irrigation installation, wool and mohair shearing machinery and training.

We offer value and quality structures and our tremendous industry track record in a short space of time proves it.

Our Visions

Revolutionise agriculture with sustainable infrastructure

Acquire **1,00 hectares of land** to use to sow and cultivate our own crops using these methods:

*Greenhouse farming using drip irrigation

2018-2022

Education and Social duties

1. Register NGO:
Build a vocational college for herd boys, less privileged orphans.
2. Open communal gardens in poor areas e.g Ha Hoohlo, Sea Point, Tsenola and Hs Tsosane.

Venture into Soil-less Farming:
Own commercial Hydroponic farms, training college and packaging facilities.

Achievements

2018

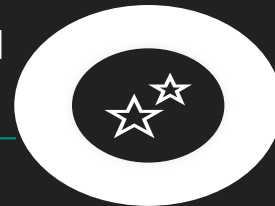

Volunteered & Donated structure(9mx4m) at God Love Center(Orphanage) in Maseru

2019

1st Commercial Project; 100m x 7m for Police College

2021- 2022

Constructed 30 mx 12m structure

Constructed 2 18m x7m under Action Ireland tender

Had our first harvest of carrots,rape and carrots

Currently managing 2 farms

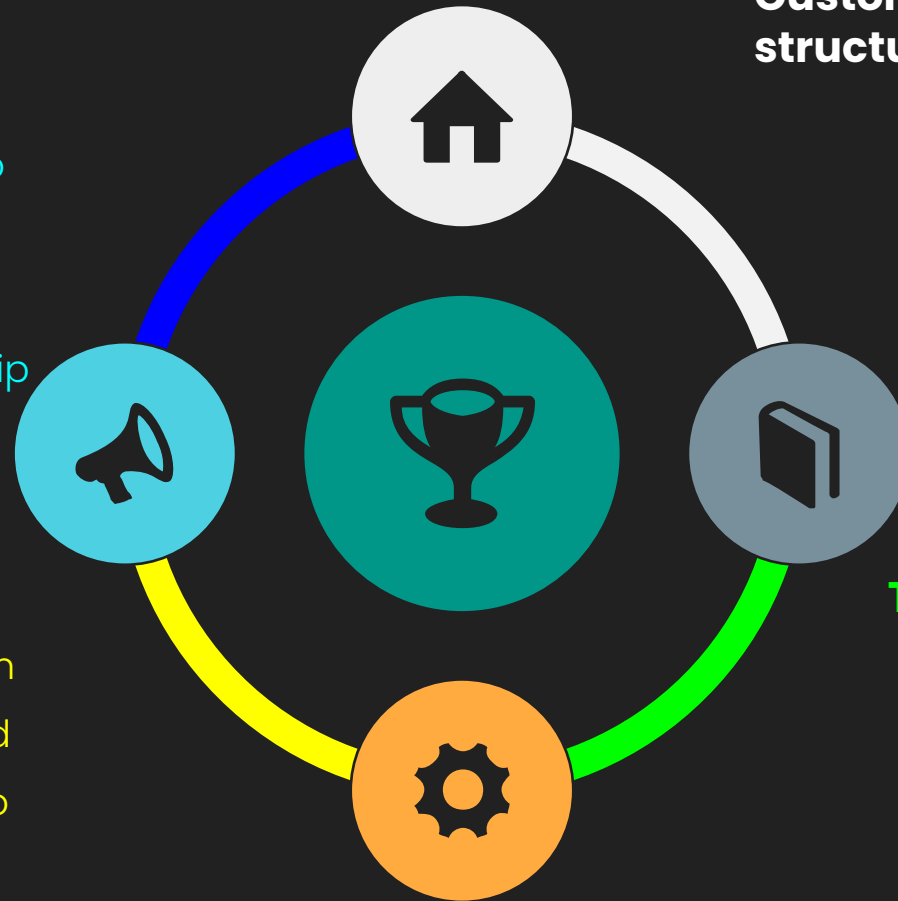

Our Great Services

Greenhouse design and assembly

We have engineering experts to design and assemble greenhouses, shade nets and install both hydroponics and drip irrigation.

Farm management, Consultation & Soil testing services

We have an experienced team of farmers, lab technicians and consultants with experience to successfully manage farms. Before construction of structures we test soil

Customised designs and structures

Our customers are the glue that holds us together hence we aim to satisfy their needs through customisable products.

Training and Education

We do not just assemble or install structures rather we educate the farmers and their teams on how to use and maintain the infrastructures

Our Great Portfolios
